Weight 365g
EAN/UPC 5060329432659

iPad Air 2

Dimensions 250x182x20mm
Weight 303g
EAN/UPC 5060329432642

Description

The rugged armourdog® 360 swivel grip case with screen protector is the perfect solution for life's hard knocks. Whether using your iPad for line-of-business applications such as retail, hospitality, meet-and-greet, queue busting, or just travelling, reading and watching videos, our swivel grip case will protect your valuable tablet from day-to-day use. The impact absorbent Thermoplastic polyurethane (TPU) outer layer protects the iPad from knocks and bumps, while the screen protector helps protect against scuffs and scratches. There are cut-outs for the speakers and camera while a soft TPU cover protects the charging port. The rotating, adjustable hand strap enables comfortable and secure handling of the iPad, eliminating hand strain or fatigue over extended periods of use. The integrated stand allows the iPad to be positioned in a portrait or landscape mode at an adjustable angle.

We pride ourselves in the top quality materials and manufacturing process we use, which is why all armourdog® products are backed with a 2 year manufacturing defect warranty.

Materials

Exterior TPU
Inner EVA
Colour Black
