EAN/UPC

White - 5060329434035

Black - 5060329434028

Description

Style is hugely important these days in a retail environment. From a hipster pop-up shop to a garden centre, your retail environment deserves a sleek experience when the customer pays. The armourdog® secure tablet POS kiosk protects your tablet from casual theft and accidental damage in a stylish, no-nonsense design. The clever cable management design and optional extra-length charge cables keep the tablet powered through the day and eliminates cable clutter. Our stands are "radio transparent" and allow Wi-Fi, Bluetooth and 3/4G signals to remain fully functional, while the strong metal facia prevents both deliberate and unintentional damage. Designed to be bolted to a table or wall (although can be used free-standing), our swivel kiosk can be rotated and the tablet flipped over to show the customer the screen. We pride ourselves in the top-quality materials and manufacturing process we use, which is why all armourdog® products are backed with a 2-year defect warranty.
