### Description

The armourdog® iPad Mini secure tablet mount will keep your iPad protected in open access areas such as retail stores, corporate offices, school labs, and restaurants. The simple design allows the iPad Mini to be secured with minimal interference to the tablet experience. The iPad is securely locked in place with the supplied Kensington style security lock, and can be rotated 360° for portrait and landscape orientation. The iPad can also be tilted for the optimum viewing angle. The sturdy base has four screw holes and can be screwed or bolted onto a table or wall for extra security. If you require a security solution for your iPad Mini that offers an unrestricted tablet experience, then the armourdog® iPad Mini secure mount is the perfect solution. We pride ourselves in the top quality materials and manufacturing process we use, which is why all armourdog® products are backed with a 2 year defect warranty.
