Description

The armourdog® Apple iPad Air 1/2 security mount is the ideal solution for any display setting whether it's a retail store, corporate office, school lab, restaurant or any open access area. The simple design allows the iPad to be secured with minimal interference to the tablet experience. The iPad is securely locked in place with the supplied Kensington style security lock, and can be rotated 360° for portrait and landscape orientation - also tilted for the optimum viewing angle. The sturdy base has four screw holes and can be screwed or bolted onto a table or wall for extra security. If you require a security solution for your iPad Air that offers an unrestricted tablet experience, then the armourdog® secure tablet mount is the perfect solution. We pride ourselves in the top quality materials and manufacturing process we use, which is why all armourdog® products are backed with a 2 year defect warranty.

Features

- Compatible with Apple iPad Air v1 or 2 only
